

Opeyemi Johnson

ML Engineer / Automation Developer

BSc (Hons), MSc

Opeyemi "Ope" Johnson *pronounced /OH-pee-yeh-mee/*

Resident in Norfolk, UK

+44 7577 283643

opejohnson@outlook.com

As an AI engineer with RPA expertise, I develop intelligent solutions that turn data into actionable insights. With a strong foundation in Python and data science, I manage projects in Jupyter Notebooks, leveraging Pandas, NumPy, and Matplotlib for analysis and visualization.

I apply machine learning to solve real-world challenges, refining models with Sci-Kit Learn and PyTorch while deploying scalable solutions across Azure and AWS. My RPA experience enables efficient data collection and automation using low-code platforms like UiPath, driving workflow optimization and productivity.

My background in Chemistry and hospitality has shaped me into a versatile problem-solver, blending analytical precision with real-world adaptability to enhance AI and automation solutions.

Training and Certifications

- Microsoft Azure AI Engineer - Ongoing
- Microsoft Azure Fundamentals - Ongoing
- AWS Cloud Practitioner Essentials - Ongoing
- Complete AI and ML, Data Science Bootcamp - Ongoing
- PyTorch for Deep Learning Bootcamp - Ongoing
- NICE Automation Developer - JAN 2023
- UiPath Automation Developer Professional Training - Completed DEC 2024
- Automation Anywhere Advanced RPA Professional (Automation 360) - JUL 2022

Projects

A compilation of my recent passion projects can be found on GitHub

- [Python-specific projects](#)
- [ML-specific projects](#)

Professional Experience & Skills

Capita / Automation Developer (UiPath, NICE, Power Automate)

SEP 2022 - PRESENT, LONDON, UNITED KINGDOM

As part of Capita's automation team, I oversee automation in a CI/CD environment for high-stakes clients, optimizing workflows in Agile collaboration with product owners—reducing staff overtime by up to 90% and cutting missed deadlines during peak periods.

I contribute to Capita's AI-driven transformation, developing agentic AI solutions, integrating GenAI tools like GitHub Copilot for code efficiency, and providing feedback for in-house solutions that improved data grounding and prompt responses by 80%.

MSC / RPA Developer (Automation Anywhere)

OCT 2020 - AUG 2022, IPSWICH, UNITED KINGDOM

Led automation initiatives across logistics, port operations, and finance as MSC UK's primary RPA developer. Standardized bots for global use, ensured seamless post-production support, and played a key role in early RPA adoption.

Spearheaded bot migrations from on-premises software to the cloud, working with .NET (C#, Java) and MySQL databases. As part of an Agile scrum team in Azure DevOps, mentored two junior developers to full qualification and successful bot deployment.

Propel Consult Limited / RPA Consultant (Automation Anywhere)

JUL 2019 - SEP 2020, LONDON, UNITED KINGDOM

A. Collaborated with solution architects, engaged with clients, and led Agile-driven projects. Gained hands-on experience with Automation Anywhere for end-to-end web, desktop, Excel, SAP, and Citrix automation.

Delivered training through webinars and face-to-face sessions, helping junior developers build their automation expertise while contributing to training materials for the company's online platform.

Cleansing Service Group / Chemist (Hazardous Waste Analysis)

MAY 2018 - JUN 2019, AYLESFORD, UNITED KINGDOM

Conducted analytical tests on waste to determine its appropriate treatment, recycling, or disposal. Managed classification, segregation, and pricing of waste disposal inquiries to ensure profitability.

Highlights: Digital transition projects, GDPR compliance, research.

Noahs Ark Chemicals / Logistics Administrator

JAN 2017 - APR 2018, LONDON, UNITED KINGDOM

Managed supply chain operations for the hazardous chemicals unit, coordinating purchases and sales with suppliers across the UK and mainland Europe to ensure seamless logistics.

Highlights: *Supply chain, attention to detail, stakeholder and client engagement.*

Grade Tutorials / Creator and Academic Tutor

SEP 2016 - APR 2018, YORK, UNITED KINGDOM

Founded **Grade Tutorials**, an online tutoring platform, where I provided one-to-one and small-group instruction in Chemistry, Biology, and Maths up to A-Level, following UK specifications.

Highlights: *Online presentations, provided structured feedback for parents.*

Education

University of York / MSc Green Chemistry & Sustainable Industrial Technologies

SEP 2015 - SEP 2016, YORK, UNITED KINGDOM

MERIT

Research project: Developing Useful Catalysts from Bio-based Sources

Awards: Awarded the Bridge Scholarship on the basis of academic excellence and perseverance to the value of 5,000 GBP

Highlights: *As elected course representative, I advocated for masters students, securing dedicated study spaces and influencing departmental improvements within the School of Chemistry.*

Queen Mary University of London / BSc (Hons) Chemistry with Biochemistry

SEP 2011 - JUL 2014, LONDON, UNITED KINGDOM

FIRST CLASS, WITH HONOURS

Research project: Exploring Oxidations of Inert C-H Bonds.

Hobbies & Interests

When I'm not hard at work, you'll find me unraveling a gripping whodunnit or cracking crossword clues, both of which satisfy my love for problem-solving. Otherwise, I'm simply enjoying good music.

Other Notes

I have SC Clearance valid until October 2029.

In-depth details of my certifications can be found on my LinkedIn profile.

I have no working restrictions within the UK. I have successfully worked remotely since January 2020.
